ASTIGMATISM.

What it is, and How Corrected.

Astigmatism or Irregular Vision is one of the most common of all the refractive errors. It is due to the irregular curvature of the film known as the Cornea. Of course no instrument is sufficient to correct it, but in the hands of a thoroughly efficient and competent eye specialist the ophthalmometer reveals the exact condition of the eye in a way that nothing else can. If your eyes need attention have DR. J. T. JOHNSON to put them under this wonderful instrument. Office hours 8:30 to 12:30; 2 to 6. 302 1/2 S. Elm St.

ROBBERS' SUCCESSFUL WORK.

J. M. Morris' Safe, at Thomasville, Robbed of \$1000.

A gentleman who came from Thomasville today tells the Telegram that that town was thrown into a fever of excitement this morning when it was learned that safe crackers had done successful work there last night.

During the night robbers entered the store of J. M. Morris & Son, blew open the safe with dynamite and carried off \$1000 in cash. The work was so nicely done that it is believed that professionals were interested in the cracking, though, up to the time our informant left, absolutely no clue to the robbers had been discovered.

Entrance to the store was gained by prizing open the front door. The robbers confined their work to the safe and money drawer, and the latter, containing no money, was not tampered with.

The town of Thomasville has no bank, though preparations are being made to open one there at an early date. This being the case, parties who have no safe deposit their money with some one who has, and Messrs. Morris & Son having a safe of good size, a large amount of the money stolen last night belonged to other parties. It is understood that the firm charged no rent, and, consequently, is not responsible.

Later—it is learned this afternoon that only about \$800 in cash was secured by the robbers, who carried off \$200 worth of goods. Some of the money stolen belonged to the Storm Relief Fund, of which the senior Mr. Morris was treasurer.

ENCOUNTERED A DESPERADO.

Ben Collins, of the Winston Train, Faces a Pistol.

Ben Collins, baggage master on the Winston train, had a rather exciting experience with a negro yesterday afternoon while the train was enroute from Greensboro to Winston. When a few miles this side of Winston it was discovered that two negroes were riding the rods under the train. The train was stopped and Mr. Collins alighted from the car to assist one of the negroes to dislodge himself. Being in a hurry he caught him man by the foot and snatched him ungraciously to the ground. The passenger proved to be George Williams, alias Williamson, a desperate negro wanted in Martinsville, Va., for murder, and no sooner had he hit the ground than he rose and presented a pistol at the end of Mr. Collins' nose. The baggage master was unarmed and he cheerfully admits that he immediately sought refuge in his car, pulled the bell cord and the train went on to its destination.

The Winston police were informed of the desperado's whereabouts and several of them with one or two citizens went in search of him. He was seen near the place at which he was put off the train but the officers were unable to effect his capture.

The negro carries two pistols. He has found refuge in the suburbs of Winston-Salem since he committed murder a few days ago. A reward of \$200 is offered for his arrest and the Winston police are after him with a determination that he shall be brought to justice.

K-PT Very Quiet.

Oak Ridge, July 20.

Ed. Telegram.—The Oak Ridge summer team baseball aggregation went down to Greensboro Tuesday and came back reporting that they showed the Greensboro team their heels to the tune of 28 to 8. Their friends anxiously awaited the appearance of the Telegram to confirm their statement; but the Telegram was strangely silent. How was it?

[The game referred to escaped our local optics, and the first we knew of it was on receiving the above card. On investigation we find that the Oak Ridge team made a correct report, and we can account for our failure to get a report of the game only through the extreme modesty of our friends from Oak Ridge or the desire of the boys here to keep from the press their overwhelming defeat. The game was not advertised and was witnessed by a small crowd.—Ed. Telegram.]

WHO WILL SUCCEED ALGER?

General Otis Said to Be a Candidate for the Office.

THE DEMOCRATS OF FLORIDA

Are For Bryan—Senator Martin's Re-election Beyond Question. Other Interesting News.

Special to THE TELEGRAM.

Washington, July 21.—There is naturally much speculation as to whom the successor of Secretary Alger will be. At the white house it is stated that the president has given but little consideration to this phase of the situation as yet. The secretary, it is understood will not retire before August 1st, and if necessary the president could designate an acting secretary of war, who, under the law could serve for thirty days. It is hardly likely, however, that the president will do this, but will probably select a secretary to take the place of Secretary Alger, who would step into office immediately when Mr. Alger retires.

Several names are mentioned in connection with the cabinet portfolio, the most prominent being that of Attorney General Griggs. The selection of Mr. Griggs would give general satisfaction to the republican leaders who regard him as a level-headed man, and his connection with the cabinet during the struggle in the east, has given him an understanding of the situation which would be of valuable aid to the president. Assistant Secretary Meikelljohn is also mentioned as a possibility, and as he is familiar with the work of the war department his selection would not surprise very many. The names of General Harrison Grey Otis, Ambassador Horace Porter, and others have been suggested. The name of Adjutant General Corbin is also mentioned, but he is not considered even as a remote possibility.

Although many names for the office are mentioned, it does not appear that there is any active struggle to get the place. Most politicians now in Washington, who ordinarily might have cabinet aspirations, believe that in view of the criticisms which have been hurled at Secretary Alger, and the administration makes the office a rather risky one for a politician with future aspirations politically, to make a contest for. The need of a man with exceptional qualifications is also realized, so it is probable that the president will make the selection himself, and the new secretary may be a man not now thought of in connection with the office.

In social circles of the national capitol the retirement of Secretary Alger will be deeply regretted. Mrs. Alger has enjoyed the reputation of a charming hostess, and her beautiful home has often been the scene of pleasant gatherings. The residence of the Alger was the former home of Ex-Secretary Lamont, on K street, in the fashionable center of the national capital.

Among well known southern men in Washington is Representative Sparkman, of Florida, who came to Washington among other things to recommend to the president the appointment of W. C. Harlow to a lieutenant in the volunteer army.

Mr. Sparkman says that the democrats in Florida are not taking any advanced position at this time regarding political matters. The state, he says, is an essentially Byran state, and will be for the Nebraska unless conditions change between now and next year.

Rev. G. R. White, D. D., an Associate Reformed Presbyterian minister from Mecklenburg county, N. C., is here on his summer vacation which he will spend in Pennsylvania, New York and Northfield, Mass. Dr. White is accompanied by his sister-in-law, Mrs. M. E. Grier, a missionary in China, who has just been paying a visit to her husband's parents at Due West, S. C. Before returning to China she will visit her own parents, who reside at Greenville, Pennsylvania.

Senator Martin was in Washington the other day stopping over here for a few hours enroute to the horse show at Manassas, Va. The senator stated that his re-election to the senate is beyond question.

W. H. Pearson, former secretary to Hon. W. C. Whitney, ex-secretary of the navy, was in Washington Wednesday enroute to Mount Vernon, Va. He also visited Alexandria, Va. He will stop over here again on his return home.

H. J. Elliott, of this city, who has been awarded the contract for the erection of the statue to the memory of the late Senator Vance, of North Carolina, is among the best known sculptors of Washington City.

Miss J. Le Berta Gray, a teacher in the public schools of this city, has been offered a prominent position as teacher in the Agricultural and Industrial school at Cappahosie, Gloucester, Va.

New postoffice has been established

Special service in North Carolina has been discontinued at Mills, Alleghany county, from Trap Hill from July 31, 1899.

A GALA WEEK CONSIDERATION.

Of Interest to the Merchants Who Will be Called Upon.

Those having the management of the night entertainments in charge for Gala Week, have agreed to place their announcements all on one advertisement, which will be made very attractive.

This has been done through an appreciation of the fact that the merchants and others, who are desiring to aid in every way the advancement of the interests of the occasion, will have their windows filled with displays and decorations, making it hard to grant the favor of displaying the advertisements, (if so many are used) yet harder and out of keeping with the spirit of the occasion to refuse.

It is therefore in consideration of this condition that the conclusion to use but ONE advertisement to include ALL of the night entertainments for the entire Gala Week has been determined upon. It is confidently expected in consideration of this arrangement, that the merchants will lend their hearty co-operation, and permit the display of at least one of the advertisements in a conspicuous window or place.

GOOD ROADS OUTLOOK.

We are very much pleased to notice that the people of Guilford seem to be taking quite an interest in the subject of good roads.

Next Monday night, in this city, the Good Roads League Club, of Guilford, whose members have already subscribed \$6,000 toward the improvement of the roads of this county, will meet and formally organize. And Prof. Bandy, the civil engineer for the county, will begin making a map of the public road from a point beginning at the Normal and Industrial College and leading to Pomona, a distance of three miles, about August first. Prof. Bandy is a finely-trained and scientific road-builder. He attended the Charlotte road convention last week and is highly enthused over the important subject of better roads. He is quite enamored of the excellent highways of Mecklenburg, and will probably make our roads after their fashion.

We may be sure that when a few miles of scientific turpikes shall have been constructed, the people of Guilford will be so well pleased with the easy transportation of traffic, the great saving of horse-flesh and wear and tear of vehicles, the immense enhancement of adjacent property, and the many other advantages of good roads, that the people will never be satisfied again with our present mud-canals and we will at no distant day hail old Mecklenburg as our only rival in good roads in the state.

Almost everybody is pleased at the arrival of Alger's benighted resignation. Elihu Root is talked of as his probable successor.

The Danville Bee has discovered a wonderful recent invention:

A machine has been invented, which by the aid of electricity, you can talk a great distance, and recognize the human voice. It is called a Telephone, and will perhaps, within the next fifty years come into general use. Just imagine talking into a box and having the voice travel thirty miles!

Serious drouths are prevalent in some sections of the state and the people are praying for rain. It is feared that the crops will be ruined.

THE McKINLEY CRISIS.

The following exceedingly sensible and timely editorial is taken from the Richmond Times:

We believe that President McKinley is an honest man and we believe that he is endeavoring to give the country a wise and honest administration. In the conduct of the war with the Philippines we have been disposed to accord to him a sincere desire faithfully to discharge his duty with due regard to the interests of all persons concerned and in a spirit of justice to all. We have not liked the spirit of those who have harshly criticized the administration for carrying on the war in the Philippines and who have been disposed to throw obstacles in the way. We believe that it is the desire of every true American, now that the flag has been planted upon the Philippines, that our troops shall not retire under fire.

The Times was opposed to the war with Spain, and is opposed to imperialism, and we think it was an evil day for the United States when the Philippines fell into our hands. But now that we have undertaken the job, now that the responsibility is upon us, the United States government must show its Anglo-Saxon blood, and the people are determined that the rebellion shall be crushed.

But it is now a glaring fact—which has become almost a national scandal, that the war department, to say the least, has failed to measure up to the requirements of the occasion, and it would seem from recent developments, that our campaign in the Philippines has been most discreditable, not to say disgraceful, to American arms. We have long suspected and have time and again said through these columns that our troops were making little, if any, progress in suppressing the Aguinaldo rebellion, and it would now appear from the round robin that has been sent out by the correspondents

at Manila, that the worst has not half been told. The situation from Mr. McKinley's standpoint is most serious and demands his most prayerful attention. The country will not condemn him for carrying on war in the Philippines, but it will undoubtedly hold him responsible for the manner in which that war is carried on.

A crisis in Philippines' affairs has been reached and Mr. McKinley must look to his laurels.

A REINCARNATED DOG.

He Hadn't Lost His Human Traits in the Process.

"You can't tell me there is nothing in the theory of reincarnation," remarked a traveling man, "for I know it. I was down in Florida recently, and in St. Augustine I saw a snob dog—an out and out snob. His name is Towser, and he is just a common yellow dog, lives in the street and belongs to no one."

"In the summer, when no wealthy northern people are in the town, he plays with all the middle class children and dogs and will greet patronizingly the middle class men and women who know him. But in the winter, as soon as the season begins, he attaches himself to some rich New York family, loafs in their yard, tags their footsteps or carries all about the city, attends them to church and home again and so far as he is able makes himself one of them. For his meals he has been forced to resort to the back yards of a plain, good woman, who pities him and feeds him regularly. He is friendly with her at his eating hours, but never so far forgets himself as to wag his tail at her on the street or when he is with more pretentious people."

"When society functions take place in St. Augustine, there is Towser. Golf matches, afternoon teas, picnics or boating parties, all are attended by him with most conventional regularity. He never greets any ordinary acquaintance when they are socially engaged and has even been known not to eat for several days when a fashionable wedding was on his mind. With the swell dogs of St. Augustine Towser never has any rows, having, no doubt, studied the politic art of being agreeable, but with commoner cuts he is irritable and defensive. That dog has been human in his time, and I'd give a penny to know who he was."—Indianapolis Journal.

AMONG THE CANNIBALS.

A Traveler's Experience With the Man Eaters of West Africa.

Mr. P. A. McCann has had 19 years' actual residence in west Africa. Mr. McCann's seven years' trading and residence with the cannibal tribes of the French Gaboon probably form the most exciting part of his experiences. He got friendly with them and thoroughly studied their habits and customs. They quite believed that the white men ate quite like them as they themselves eat their fellow blacks. A big chief offered Mr. McCann the smoked thigh of a native. This was considered a gracious act. To refuse it would be unfriendly. Mr. McCann was in a dilemma.

But he feigned illness, said he was not eating just then. The chief eventually put the matter off good naturedly by saying he supposed the white man preferred white meat to eat instead of black meat. "The Mpongwees," said Mr. McCann, "are in ferocious and pugnacious qualities second to no other tribe in Africa. Their villages mostly consist of a single street from 600 to 1,500 yards long, on each side of which are the houses. In these houses they cook, eat and sleep and keep their store of provisions, the chief of which is smoked game and smoked human flesh, hung up to the rafters.

"Although ferocious and quarrelsome to a degree, they are very industrious. They show considerable skill in the manufacture of pottery, and the designs of their cooking pots, water jars, tobacco pipes and palm wine bottles are extremely artistic. In ironwork they are also skillful workers. Although they kill game for food, they much prefer human meat to any other."—London Globe.

Where the Crabs Come In.

When a school of menhaden make their way into a bay, they may stay for days swimming around in one region. Larger fishes, including perhaps some sharks, feed upon them there. From such feeding there are more or less fragments that sink down through the water, and the various crabs and other crustaceans come scuttling from all parts of the bay to get them. It may be that the tide carries some of the litter about, or perhaps the crabs and other creatures smell it, as bluefish scent the bait that is used in chumming, but when a school of menhaden are preyed upon at the surface all the crabs in the bay congregate on the mud below to catch the crumbs that fall.—New York Sun

Choctaw Murders.

Antlers, I. T., July 20.—The Choctaw officials under arrest for murder, the offense being the execution of Wm. Goings on Thursday last, had a preliminary hearing before commissioner Haskell today and were discharged, the commissioner holding that congress had endowed the Choctaw Nation with jurisdiction within their territory.

Thomas Rhoads, Centerfield, Ohio, writes: "I suffered from piles seven or eight years. No remedy gave me relief until DeWitt's Witch Hazel Salve, less than a box of which permanently cured me." Soothing, healing, perfectly harmless. Beware of counterfeits. Howard Gardner.

"I haven't the heart to do it," wailed the tender-hearted poker player when his designs on the pot were frustrated by the absence of a card necessary to fill out a flush.

Gun-shot wounds and powder-burns, cuts, bruises, sprains, wounds from rusty nails, insect stings and ivy poisoning—quickly healed by DeWitt's Witch Hazel Salve. Positively prevents blood poisoning. Beware of imitations. "DeWitt's" is safe and sure. Howard Gardner.

HOW GENERAL LUNA DIED.

Run Through by a Fencing Master Disguised as a Sentinel.

Vancouver, B. C., July 20.—The following advice are taken from files of Manila papers of June the 14th to June 15th:

"Some new light has been thrown on the tragic death of General Luna. The latter had long harbored an ambitious jealousy against Aguinaldo. Luna gradually grew more and more independent.

"Aguinaldo contented himself in secretly undermining Luna's influence and waiting his opportunity. Finally orders came, apparently from Aguinaldo, for Luna to attend Aguinaldo. Luna went with his friend, General Roman, to Aguinaldo's palace on this summons, determined to have it out and settle with Aguinaldo there and then.

"The guard at the door said 'not at home,' Luna and Roman insisted, Luna remarking: 'Aguinaldo is at home to me.'

The sentry said nothing, but placed his sword across the door horizontally, then made a feint at Luna. Quick as a flash Luna's sword sprang from its sheath.

"Let me pass," he shouted at the sentry, "or I'll cut you down." The sentry, an expert swordsman, hired by his chief to assassinate Luna, said: 'I have orders to let no man pass.'

"This he shouted so that loungers could hear. Then Roman and Luna lunged at the sentinel with their swords. The fencing master, disguised as a sentinel, was much quicker than they. He parried their thrusts, ran Luna through the heart, and then finished Roman at his leisure. Enormous excitement prevailed, but Aguinaldo's adherents were delighted, as it removed a dangerous rival for the leadership and immortal fame.

"The sentry fencing master is rapidly rising to the command made vacant by Luna's death. He has been promoted from lieutenant to colonel in one jump."

Yellow Jaundice Cured

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours. M. A. Hogarty, Lexington, Ky." Sold by C. C. Holton, druggist.

"That," remarked the young trout after the angler had made his cast, "I conclude is a fly." "Yes," rejoined an older member of the family; "but it's just as well not to jump at conclusions."

Scrofula to Consumption.

Any one predisposed to Scrofula can never be healthy and vigorous. This taint in the blood naturally drifts into Consumption. Being such a deep-seated blood disease, Swift's Specific is the only known cure for Scrofula, because it is the only remedy which can reach the disease.

Scrofula appeared on the head of my little grandchild when only 18 months old. Shortly after breaking out it spread rapidly all over her body. The scales on the neck were so thick on the slightest touch, and the odor that would arise made the atmosphere of the room sickening and unbearable.

The disease next attacked the eyes, and we feared she would lose her sight. Eminent physicians from the surrounding country were consulted, but could do nothing to relieve the little innocent, and gave it as their opinion that the case was hopeless and impossible to cure. It was then that we decided to try Swift's Specific. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return.

Mrs. Ruth Buxley, Salina, Kas.

Scrofula is an obstinate blood disease, and is beyond the reach of the average blood medicine. Swift's Specific

S.S.S. For The Blood

is the only remedy equal to such deep-seated disease; it goes down to the very foundation of the system, and every taint. It is purely vegetable, and is the only blood remedy guaranteed to contain no mercury, potash or other mineral substance whatever.

New Methods in Advertising.

Railway companies are adopting
new and unique methods of adver-
tising, as is demonstrated by the pub-
lication in the Four Track Series of
the New York Central Road, of what
is now becoming widely known and
somewhat famous, "A Message to
Garcia," by Elbert Hubbard, of the
Phillips Magazine, which itself is a
peculiar and interesting publication
as relating to magazines of the present
day.

This article is attracting widespread
attention, and has been answered by a
writer in "The Mirror," published at
St. Louis, under date of June 15, 1899,
entitled "A Message to Hubbard,"
which gives the other side of the
American employee.

The Southern Railway, the leading
Southern system, spreading from
Washington to the Mississippi River,
and gridironing the South, and the
only line to "The Land of the Sky,"
section of western North Carolina,
has also issued a publication out of
the ordinary, in the shape of an at-
tractive booklet entitled "A Night on
Mount Mitchell," by Henry Litchfield
West, one of the leading editorial and
political writers of the Washington
Post, a paper widely and favorably
known for the ability displayed in its
editorial and political columns. This
story is a description of an ascension
to the very top of Mount Mitchell,
which is the highest mountain peak
east of the Rocky Mountains, and 400
feet higher than Mount Washington,
upon which has been erected a monu-
ment to Professor Mitchell, after
whom the mountain was named.

The story is replete with interest
and thrilling in detailing a trip which
may be taken by any traveler for
health or pleasure, and reminds one
of Talmage's description of Lookout
Mountain, when he stood upon its
heights and delivered the following
oration, which is reproduced for its
graphic description of a location
famous in American history:

"The carriage wound its way up,
up, up. Standing there on the tip-top
rock, I saw five states of the Union
Scenes stupendous and overwhelming.
One almost is disposed to take off his
hat in the presence of what seems to
be the grandest prospect on this con-
tinent. There is Missionary Ridge,
the beach against which the red bil-
lions of Federal and Confederate courage
surged and broke. There are the blue
mountains of North and South
Carolina. With strain of vision there
is Kentucky, there is Virginia. At
our feet, Chattanooga and Chicka-
mauga, the pronunciation of which
proper names will thrill ages to come
with thoughts of valor and despera-
tion and agony. Looking each way,
and any way, from the top of that
mountain, earthworks, earthworks—
the beautiful Tennessee winding
through the valley, curling and coil-
ing around, making letter S after let-
ter S, as if that letter stood for shame
that brothers should have gone to
massacre with each other while God
and nations looked on. I have stood
on Mount Washington, and on the Si-
erra Nevada, and on the Alps, but I
never saw so far as from the top of
Lookout Mountain."

Copies of this booklet and other in-
teresting publications on "The Land
of the Sky" section and "Lookout
Mountain" may be obtained from Mr.
W. A. Turk, General Passenger Agent
Southern Railway, Washington, D. C.

A Cheap Trip to the Pacific Coast.

The National Educational Asso-
ciation meeting at Los Angeles, Cal., is
the occasion for the Southern Railway
to put on the remarkably cheap rate
of One Fare for the Round Trip (plus
\$2.00 Association Membership fee).
This, in connection with the new Pal-
ace Tourist Sleeping Cars, operated
over the Southern Railway and the
Southern Pacific, a double berth in
which costs only \$7.00, renders possi-
ble the cheapest and most enjoyable
trip of the season. A particularly
pleasant feature of this trip is that the
tickets are good going one way and
returning another; i. e., going via
New Orleans and returning through
Salt Lake City and Colorado; or by
the payment of \$12.50 additional, the
trip may be made returning through
Portland, Ore.

Stop over privileges are allowed at
El Paso or any point west thereof, on
the going trip, and at any point west
of Denver and Colorado Springs on
the return trip. By this means pas-
sengers are afforded the opportunity
of seeing the entire Pacific Coast.
Side trips are arranged at nominal
cost from Los Angeles and San Fran-
cisco to all points of interest in Cal-
ifornia. Further information may be
obtained from any agent or representa-
tive of the Southern Railway, or from

Mother's advice is worth more than
the advice of any other woman to the
daughter who is perplexed by the prob-
lems of physical health and comfort.
There's no need therefore to "write to a
woman," who is a stranger.
There may, however, be need for a
physician's advice to supplement the ad-
vice of the mother. In such a case the
offer of free consultation by letter, made
by Dr. Pierce, opens the way to health,
and at the same time avoids the un-
pleasant questioning, the repulsive ex-
aminations and offensive local treatments
which less experienced physicians often
insist on.

Any sick or ailing woman is invited to
write to Dr. Pierce, enclosed in the strict-
est privacy. Each letter is held as a
sacred confidence and its answer is sent
in a plain envelope, bearing no printing
upon it.
Do not be misled by advertisements
offering "medical advice," which are
published by those who not being phy-
sicians are not qualified to give such ad-
vice. Any physician or doctor who has
a legal and professional right to the title
will publicly claim that title. Those
who offer "medical advice" and invite
you to "write to a woman" do not claim
that the woman is a doctor. The "medi-
cal advice" of an unprofessional woman
is just as dangerous as the "medical
advice" of an unprofessional man. In
more than thirty years Dr. Pierce and his
staff of nearly a score of medical special-
ists, have successfully treated over half a
million women. You can write without
fear as without fee to Dr. R. W. Pierce,
Buffalo, N. Y.

Along the cool southern slopes and
table lands of the Blue Ridge moun-
tains in Western North Carolina, at
an average altitude of 3,000 feet, is a
country full of delightful surprises to
the tourist, sportsman and health-
seeker. No other state contains so
many clear, cold and wonderfully
picturesque streams, so many grand
water falls, such wide sweeping moun-
tain views, and such beautiful lakes
as the Sapphire Country, where until
recently there was no provision made
for the accommodation of visitors to
this delightful section. Now, how-
ever, entertainment is offered on Lake
Sapphire, Lake Fairfield, and on the
summit of Mt. Toxaway, the view from
the lodge there being the most exten-
sive of any mountain point of vantage
in North Carolina.

Parties desiring to visit this beauti-
ful country can purchase round trip
tickets to Brevard, N. C., via Hender-
sonville, where coaches convey you
over good roads making the drive one
of extreme pleasure. For full infor-
mation call on any agent Southern
Railway, or write R. L. Vernon, trav-
eling passenger agent, Charlotte, N. C.,
or W. A. Turk, general passenger
agent, Washington, D. C.

Baldness Can be Cured

Just so long as there is a particle
of vitality left in the hair roots.
The fact that the hair is smooth
and shining is no positive proof
that the roots beneath are dead.
Deep down beneath the skin, hair
roots may yet exist, filled with
latent vitality, and all that is re-
quired to develop them into a
beautiful head of hair is the faith-
ful application of the proper agents.

Seven Sutherland Sisters'

preparations furnish the easiest,
surest and quickest way to acce-
lerate the growth of hair, and to
develop a head bare of hair. Why
not try them?

A SAD AFFLICTION.

**Young Man's Mind Unbalanced by
the Study of the Bible.**

A father and son, of whom the lat-
ter's condition is extremely sad,
passed through Greensboro this morn-
ing enroute to Raleigh where the
young man will be left in the insane
asylum.

The young man, who is about 20
years old, lost his mind about seven
weeks ago, from too hard study of the
Bible, his father said. His name is
F. T. Shaw and he lived with his pa-
rents in Yadkin county.

Judging from the appearance of the
people the family is very poor. The
boy's affliction is of such a nature
that he was securely bound with ropes
and then his father could not sit on
the seat with him.

As he sat in the car he sang verses
from a number of religious songs. His
face was haggard, and the passengers
in the car looked on with piteous ex-
pressions.

The father is much troubled over
his son's condition and has been told
that there is little hope of the boy's
recovery. He said that before the
boy's mind became unbalanced he was
exceptionally bright and of a quiet,
religious disposition.

Mr. A. Saunders, writing from Co-
conut Grove, Fla., says there has
been quite an epidemic of diarrhoea
there. He had a severe attack and
was cured by four doses of Cham-
berlain's Colic, Cholera and Diarrhoea
Remedy. He says he also recom-
mended it to others and they say it is
the best medicine they ever used. For
sale by C. E. Holton.

Discovered by a Woman

Another great discovery has been
made, and that too, by a lady in this
country. Disease fastened its clutches
upon her and for seven years she with-
stood its severest tests, but her vital
organs were undermined and death
seemed imminent. For three months
she coughed incessantly, and could
not sleep. She finally discovered a
way to recovery, by purchasing of us
a bottle of Dr. King's New Discovery
for consumption, and was so much
relieved on taking first dose that she
slept all night, and with two bottles
has been absolutely cured. Her name
is Mrs. Luther Lutz. Thus writes

Is It Right for an Editor to Recom-
mend Patent Medicines?

From Sylvan Valley News, Brevard,
N. C.

It may be a question whether the
editor of a newspaper has the right to
publicly recommend any of the vari-
ous proprietary medicines which flood
the market, yet as a preventive of
suffering we feel it a duty to say a
good word for Chamberlain's Colic,
Cholera and Diarrhoea Remedy. We
have known and used this remedy in
our family for twenty years and have
always found it reliable. In many
cases a dose of this remedy would
save hours of suffering while a phys-
ician is awaited. We do not believe
in depending implicitly on any medi-
cine for a cure, but we do believe that
if a bottle of Chamberlain's Colic,
Cholera and Diarrhoea Remedy were
kept on hand and administered at the
inception of an attack much suffering
might be avoided and in very many
cases the presence of a physician
would not be required. At least this
has been our experience during the
past twenty years. For sale by C. E.
Holton, druggist.

No Cure—No Pay.

That is the way all druggists sell
Grove's Tasteless Chili Tonic for Chills
and Malaria. It is simply iron and
quinine in a tasteless form. Children
love it. Adults prefer it to bitter,
nauseating tonics. Price, 50c.

THE REPAIR SHOP "NUISANCE."

Will Be Moved Away from Depot—Changes Are Necessarily Slow.

The numerous tracks around the turn table near the depot, where engines are repaired and cleaned have been the subject of much complaint, and the Southern Railway has been roundly condemned for allowing the work done there. The Telegram has not joined in this abuse, because it believed the Southern would correct the evil complained of as soon as possible.

It is now stated on good authority that the turn table and repair business will soon be moved to a point out toward the city limits and the annoyance of escaping steam in the vicinity of the depot and South Elm street will be obviated. The work of making the changes will necessarily be slow, as the traffic is very heavy, and the tracks are used so much it is difficult to find an opportunity to move them. The trains over the Sanford and Mt. Airy division will soon be run in on the track next to McCauley's building.

Ice Cream.

The Hook and Ladder Company's lawn party, on Court House Square, last night, was largely attended, and though the company bought all the refreshments except cakes, about \$35 was cleared. The cream was the finest ever sold at a lawn party here and many were the remarks made about its excellence. It was made by the "old reliable" J. H. West.

The firemen wish to return thanks to all who contributed to the success of the undertaking.

Another New Citizen.

The Telegram welcomes to Greensboro, in advance, Mr. C. E. Harrison and family, of Nashville, Tenn. Mr. Harrison, who is the successful state agent for the Deering Harvester Company, has rented one of the Hagan houses on Church street and will move his family here about the first of August. He possesses the energy and foresight characteristic with the people of the section from which he comes, and will make a good citizen.

Now Ready For Business.

The beautiful new store of Kaufman, the haberdasher, at 306 South Elm street, formerly under the Benbow, is now open for business, with a splendid new line of gents furnishings and men's shoes. Your attention is called to his big new ad in this paper. Kaufman is an artist in displaying goods, has the best of judgment and taste in making selections, and it will please you to give him a call.

Will Have an Exhibit.

The Hunter Manufacturing Co. will have an exhibit, during gala week. Pants and overalls will be made in their space in the exposition building, and the Union Special, the sewing machine used by them, will be on exhibition also, doing the above named work, and will be in charge of a man from the factory.
